HISTORY

As a young boy, Scott Summers suffered a major head injury during a plane crash. This put him into a coma for several years and destroyed his ability to control his emerging mutant powers. When opened, Scott's open eyes constantly emit powerful energy blasts.

Professor X found Scott and fashioned a ruby-quartz visor to control the boy's raw energy. Recognizing Scott's incredible powers, the professor offered to make the boy the first member of his then nascent X-Men team. Scott has been the de facto leader of the X-Men ever since.

PERSONALITY

Despite being an intelligent and commanding leader, Scott has often struggled in personal social situations. Over the years, with the help of his mutant friends, he's managed to overcome much of his social anxiety.
