HISTORY

Rocket is a genetically and cybernetically engineered extraterrestrial created to resemble an Earth raccoon and to work as one of the protectors of the Loonies, a group of criminally insane aliens sentenced to life on the prison planet Halfworld in the Keystone Quadrant. After leaving his position, Rocket made his way into the wider galaxy, where he wound up involved in questionable activities that landed him in a Kree prison. There, he met his best friend, Groot, and together, they helped form the Guardians of the Galaxy.

With the rest of the Guardians, Rocket saved the galaxy from being destroyed by the alien hive fleet known as the Phalanx. After that, they decided to band together permanently, becoming a family as much as a team. Rocket has even stepped up to lead the team when Star-Lord wasn't available.

PERSONALITY

Rocket is sharp and conniving, one of the smartest people around, especially when it comes to tactics and logistics. He carries larceny in his heart and is always looking for a better angle on any problem that presents itself.
