HISTORY

Young attorney Jennifer Walters nearly died after being shot by a criminal. A blood transfusion from her cousin Bruce Banner—also known as the Hulk—saved her life, but the gamma-irradiated blood granted her powers similar to those of her cousin. Unlike the Hulk though, Walters can control the transformations into her emerald-skinned alter ego and retains her intelligence.

In the years since, Walters has proven herself a valuable member of the Avengers and a regular substitute member of the Fantastic Four. While she spent some time as a bounty hunter, she regularly returns to the law. Her skills as a sharp litigator with hands-on experience with super-powered people keeps her in high demand.

PERSONALITY

In her regular form, Walters is often an introverted homebody, but when in her She-Hulk form, she is much more extroverted, to the point of aggressiveness. She struggles to balance these two sides of her personality and sometimes prefers to simply remain She-Hulk, who she considers more fun.
