HISTORY

Jane Foster served as a nurse for Doctor Donald Blake, the alter ego of Thor Odinson, with whom she fell in love. Thor's father, Odin, separated them, though, and Foster went on to become a doctor herself, as well as a wife and mother. She later divorced her husband, who retained custody of their son.

While Foster battled breast cancer, Thor Odinson lost the ability to use his magic hammer, Mjolnir. The hammer reached out to Foster, who took possession of it and gained the power of Thor. Odinson gave his blessing and approved of Foster using the name Thor. Becoming Thor purged Foster's body of the chemotherapy drugs fighting her cancer, though and after a series of adventures that nearly killed her, she gave up being Thor and successfully fought her cancer. She later became a Valkyrie to help shepherd the souls of dead heroes to Valhalla.

PERSONALITY

Foster is smart, capable and determined, able to stand up to Asgardian gods. Life has not always been kind to her, but she's survived it all and come out more independent and capable than ever.
