BIOGRAPHY

Real Name: Janet Van Dyne

Height: 5'4" **Weight:** 110 lbs.

Gender: Female

Eyes: Blue

Hair: Auburn

Size: Varies

Distinguishing Features: Cybernetic wings

Occupation: Tycoon

Origin: High Tech: Pym Particles

Teams: Agents of Wakanda, Avengers

Base: Mobile

HISTORY

Born a wealthy heiress, Janet Van Dyne caught the eye of brilliant scientist Hank Pym. The two quickly became partners, in both crimefighting and romance. Hank developed a special substance called Pym Particles, allowing him to grow and shrink his body mass at will. Using them, Hank and Janet became the super heroes known as Ant-Man and the Wasp, founding members of the Avengers.

Eventually, the pair split, their marriage irreparably broken by Hank's often unstable and abusive behavior, but Janet never stopped being the Wasp. Over the years, she's become a shining example of true heroism for people everywhere, far surpassing her ex-husband as a trusted leader in the super-hero community.

PERSONALITY

Raised as a pampered socialite, Janet makes a surprisingly effective battle leader. However, her social skills also make her an excellent administrator. She takes an empathetic, understanding approach to tackling the problems of her allies and her friends.
