Gender: Male

HISTORY

Born in Canada in the late 1800s, James Howlett wandered the world under the name Logan. At one point, the Weapon X program captured him and bonded adamantium metal to his entire skeleton, including his retractable claws; his mutant healing factor enabled him to survive the experience. He escaped, but with large gaps in his memory.

Logan later joined the X-Men and became a valued member of various X-teams. Over time, he recovered most of his memories. He was killed in recent years, but returned to life in time to help establish a new mutant nation on the island of Krakoa.

PERSONALITY

Logan can be cold-blooded and slow to trust others, but the restoration of his memory blunted those edges. He's still a no-nonsense man, but that's tempered with the wisdom age brings. After living as a loner for so long, he treasures his found family.
