HISTORY

While infiltrating a U.S. Air Force base in New Mexico on orders from the Russian government, Emil Blonsky came across an experimental gamma device developed by Bruce Banner. Blonsky allowed himself to be bombarded by gamma rays, permanently transforming him into the green-skinned Abomination, a monstrosity with powers rivaling Banner's own as the Hulk.

Blonsky considers the Hulk a public menace and a threat to his own considerable power. In the years since his transformation, he has largely dedicated himself to destroying the Hulk and anyone who associates with him. Blonsky has returned from certain death multiple times, only to continue pursuing the Hulk.

PERSONALITY

As the Abomination, Blonsky is highly intelligent and coherent, much unlike the Hulk often is. He's also a self-assured egomaniac who is abusive even to those closest to him. He desires the death of the Hulk so that he can prove his physical and mental superiority. Blonsky is rarely reasonable, except on the rare occasion when he has to deal with someone clearly more powerful than himself.
