HISTORY

From an early age, Norman Osborn had a relentless drive to succeed. Using notes stolen from his business partner, Osborn developed the Goblin formula to give himself superhuman powers. It also transformed Osborn into the Green Goblin—and set him on the road to insanity. He decided to use these powers to establish himself as the criminal leader of New York City. While doing so, he became enemies with Spider-Man (Peter Parker), who he later discovered to be his son Harry's best friend. Although he seems to have died several times, Osborn keeps returning, apparently fated to be a constant thorn in Spider-Man's side.

PERSONALITY

Osborn is a smooth operator, a wealthy, powerful and sharp schemer who is often several steps ahead of his foes. He is often cool and collected—right up until something frustrates his plans, at which point he becomes unhinged.
