HISTORY
Declaring that he could turn anyone into the ideal Nazi soldier, Adolf Hitler selected a random bellboy by the name of Johann Shmidt to be his next secret agent. He personally trained Shmidt to be a killer and spy, transforming him into one of the deadliest soldiers in the Third Reich.

After World War II, the crimson-faced Shmidt carried the mad führer's dream of a worldwide Nazi government into the modern age. Were he not so dangerous, it would be easy to write him off as a cackling madman. A regular ally or even commander of fascist organizations like Hydra, he's capable of launching complex schemes that threaten to bring the entire planet beneath his heel.

PERSONALITY
In his day-to-day interactions with others, the Red Skull shows himself to be little more than a fascist zealot and a madman. Despite this, he is an expert propagandist who deftly recruits crowds of bigots.
