HISTORY

Adrian Toomes invented a magnetic harness that allowed the person wearing it to fly and gave them superhuman strength. Frustrated after catching his business partner embezzling from their company, he used his invention to turn to crime, robbing places and then flying away before anyone could catch him. Spider-Man (Peter Parker) consistently puts a stop to him.

Over the years, Toomes has been put in and broken out of prison several times. He's run casinos and organized crime rings and worked at improving the technology that gives him his powers. He's at his most dangerous when working with others, but he usually prefers to work on his own.

PERSONALITY

Toomes is an old man who's bitter about how his life turned out, and he uses that as an excuse for his criminal behavior. His one soft spot is his granddaughter Tiana Toomes, who uses his technology as the costumed adventurer Starling.
